2 USE OF LANGUAGE   **Answers**

1 research   **2** productivity   **3** equipment
4 junk   **5** progress   **6** excitement
7 help   **8** money   **9** mail

Note: Other uncountable (or sometimes uncountable) nouns in the text: email, news, history, hope, postage.

Other uncountables in the text show in bold italics:
A growing amount of (0) *traffic* on the internet is now caused by spam. A type of (1) __ suggests that spam accounts for over 40 per cent of all emails globally. If you consider that annually each employee receives about 2,100 junk emails and each takes about 6 seconds to delete, you can

understand just how much (2) ___ is lost. In the same way, if corporate servers need to hold that much extra *email,* this means companies are buying a lot of extra (3) ___ just to store a lot of useless (4) ___. There has been some (5) ___, with spam filters keeping out some spam. So what else can be done? Well, there was plenty of (6) ___ about the *news* that a lot of (7) ___ is on the way and spam will be soon be *history.* Although several solutions are being explored, a lot of (8)___ and *hope* is being placed on exploring the idea which gives each email an identifiable 'postage' stamp. If the email is returned as spam, the sender will have to pay a few cents for *postage.* A lot of returned (9) ___, say ten million, would indeed make spamming very expensive.
